<b>cassette</b>	shimano XT 11/34
<b>brakes</b>	magura louise FR hydraulics
<b>levers</b>	magura louise FR hydraulics
<b>front hub</b>	shimano XT disc
<b>rear hub</b>	shimano XT disc
<b>rims</b>	mavic F219 disc
<b>tires</b>	kenda kinetics

In response to the growing free-ride trend, Doug Bradbury has devised this playful design for all trail conditions. It's Johnny T's pick of the litter for all-mountain performance "wherever and whenever" he chooses to ride. You can be certain that this is the one bike with free-ride attitude you won't have to throw over your shoulder on the climbs.

\*Pedals not included

# Beauty and grace

<b>levers</b>	shimano ultegra
<b>hubs</b>	mavic cosmos front /rear
<b>rims</b>	mavic cosmos
<b>tires</b>	continental grand prix 3000

\*Pedals not included

The Hyperion returns for 2003 with an elegant new exterior and updated specifications. What hasn't changed is the performance of carefully engineered geometrically enhanced ALite tubing and the LiteTEC titanium enhanced carbon seatstay. It's the premier model of our complete bike selection with standard road geometry.
